Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Objections

1. Claim 4 is objected to because of the following informalities: It is noted that "formed on" (claim 4, line 1) should probably be -- formed of --. Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Amsen (USP 3,195,160). The patent to Amsen discloses a net material comprising a plurality of first (25,27,29,31) and second (19,21,23) wires defining a plurality of meshes (33,35) which (looking at figure 3) define irregular shapes and sizes such that each mesh appears to be of different size and shape compared to each adjacent one.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over Amsen (USP 3,195,160) in view of Protz (USP 1,990,840). Taking a metallic scouring material

and forming it into a ball is taught by Protz (see figure 11). Forming a known material into any known form or shape would be obvious to one of ordinary skill.

6. Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Amsen (USP 3,195,160) in view of Kingman (USP 1,501,784). Taking a metallic scouring material and forming it into a hand-worn member is taught by Kingman (fig 4). Forming a known material into any known form or shape would be obvious to one of ordinary skill, including mitts or gloves.

7. Claim 4 is rejected under 35 U.S.C. 103(a) as being unpatentable over Amsen (USP 2,737,679) in view of Choma (USP 2,737,679). Taking a metallic scouring material and forming it into a belt is taught by Choma. Forming a known material into any known form or shape would be obvious to one of ordinary skill.

Response to Arguments

8. Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
